On Demand Network Infrastructure That Lets Businesses Fly

Prohibitive hardware costs and inflexible IT stop SMB’s growing. 85% of SME’s believe cloud technology enables them to grow faster.

What is OfficeTechHub Infrastructure as a Service (IaaS) on Azure?

Utilising the Microsoft Azure cloud platform, OfficeTechHub provides SMB’s with on-demand, flexible, pay-as-you-go network infrastructure, completely customised to your business needs. This allows SMB’s to flex their IT around their business needs, react quickly to customer demands and gain competitive advantage.

Why customers use OfficeTechHub IaaS on the Microsoft Azure Cloud

- On-demand infrastructure that flexes with your business.
- Avoid large capital spends
- Cloud flexibility: work anywhere

On Demand

- Create an instant branch office
